Packing Tips

Successful packing leads to a successful move, so we've compiled some of our best tips to help you out!

- Empty drawers of breakable items that could easily be damaged or puncture other items (clothing can remain in drawers).
- Start with out-of-season and infrequently used items. Save the last things you'll need until the moving day.
- Pack similar items together.
- Pack heavy items in smaller boxes.
- Wind electrical cords and fasten them so they do not dangle.
- Build up in layers. Start with the heaviest items on the bottom and the lightest on top.
- Cushion well with crushed paper or padding. The more fragile the item, the more cushioning is needed.
- Place small boxes in a single, large box. Fill in the spaces with crushed paper or padding.
- Avoid overloading boxes, but strive to firmly pack and prevent items from shifting.
- Pack heavy items in smaller boxes.
- Seal items with tape. Do not interlock moving box tops.
- Put detailed labels on the tops and sides of all moving boxes.
